Step 2: Complete checklist

If it seems that the candidate site may meet the designation criteria, complete the designation checklist below (and provide all the relevant evidence). The checklist should be completed for each candidate site.

2 Planning History

2.1 Is there currently a planning application for this site? If planning permission has been permitted could part of the overall site still be used as a Green Open Space?

No.

2.2 Is the site allocated for development in the Local Plan? If allocated, could part of the overall site still be used as a Green Open Space?

No. No development of the site is desired through the Local Plan.

3 Size, scale and “local nature” of proposed Local Green Space

3.1 Area of proposed site

It is unlikely that a site of over 20ha (50 acres) would be considered suitable for designation.

0.296ha

3.2 Is the site an “extensive tract of land”? (Extensive tracts of land cannot be designated as Local Green Space)

E.g. how large is it in comparison to other fields; groups of fields; areas of land in the vicinity etc.? Does the site “feel” extensive or more local in scale?

The site is in keeping with the local area.

3.3 Is the proposed site “local in character”? E.g. does the site feel as though it is part of the local area? And why? How does it connect physically, visually and socially to the local area? What is your evidence?

The church is local to the community.

4 Need for Local Green Space

4.1 Is there a need for a local green space in this location? E.g. is there a shortage of accessible greenspace in the area? Is there a village needs survey or parish plan that provides evidence of that need.

Further information – Natural England (Accessible Natural Greenspace Standard)

The church and churchyard are necessary in this location.

| 12. | What are the other reasons why the site has a particular local significance for the local community? | Only church in the village. |
Step 3: Neighbourhood Plan Group considers designation

The Neighbourhood Plan Group should review the evidence provided and decide whether the site is suitable for designation and whether any additional evidence is required.

Not every potential site will meet every criterion, however all sites must meet the following criteria in the checklist -

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>2.1</td>
<td>not with an extant planning permission within which the Local Green Space could not be accommodated</td>
</tr>
<tr>
<td>2.2</td>
<td>not allocated for development in the relevant Neighbourhood Plan, unless it can be shown that the Local Plan housing allocation is not strategic and can be re-located somewhere else in the neighbourhood plan area; or alternatively that the Local Green Space could be incorporated within the site as part of the allocated development</td>
</tr>
<tr>
<td>3.2</td>
<td>Not an &quot;extensive tract of land&quot;</td>
</tr>
<tr>
<td>3.3</td>
<td>&quot;local in character&quot;</td>
</tr>
<tr>
<td>5</td>
<td>in &quot;proximity to the community it serves&quot;</td>
</tr>
<tr>
<td>6</td>
<td>“demonstrably special to the local community”</td>
</tr>
</tbody>
</table>

And all sites must meet at least one of the following criteria in the Checklist -

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>7</td>
<td>“particular local significance … because of its beauty”</td>
</tr>
<tr>
<td>8</td>
<td>“particular local significance … because of its historic significance”</td>
</tr>
<tr>
<td>9</td>
<td>“particular local significance … because of its recreational value”</td>
</tr>
<tr>
<td>10</td>
<td>“particular local significance … because of its tranquillity”</td>
</tr>
<tr>
<td>11</td>
<td>“particular local significance … because of its wildlife”</td>
</tr>
<tr>
<td>12</td>
<td>“particular local significance … for any other reason”</td>
</tr>
</tbody>
</table>

In order to provide greater certainty, the checklist incorporates Natural England’s Accessible Natural Greenspace Standards (ANGSt) to define the likely size of a suitable Local Green Space and its distance from the local community.

A site of over 20ha (50 acres) is considered to be “an extensive tract of land” and therefore not suitable for designation as a Local Green Space.

If during the process it becomes evident that the site is not appropriate for local green space designation, there are other options that can be investigated (see Appendix 2).
Step 4: Consult landowner

The Neighbourhood Plan Group should consult the landowner.
Step 5: Neighbourhood Plan Designation

The site can now be designated in the Neighbourhood Plan. The site designation will be “tested” through the plan process. Anybody can object to policies or sites in a plan during the consultation process and these consultation responses must be considered.

The Neighbourhood Plan will be scrutinised by an Independent Examiner, who will ensure that the plan is robust and based on sound evidence. The completed checklist will form part of that evidence. The Neighbourhood Plan will also be subject to a local referendum.

Formal designation will be complete when the Neighbourhood Plan is ‘made’.
APPENDIX 1: MODEL NEIGHBOURHOOD PLAN POLICY AND SUPPORTING TEXT

Draft Supporting Text
National policy makes provision for local communities to identify green areas of particular importance to those communities, where development will not be permitted except in very special circumstances. The following sites have been designated as Local Green Spaces through the Neighbourhood Plan consultation process:

Draft Policy
Development that would harm the openness or special character of a Local Green Space (as designated on the Policies Map) or its significance and value to the local community will not be permitted unless there are very special circumstances which outweigh the harm to the Local Green Space.
APPENDIX 2: ALTERNATIVES TO LOCAL GREEN SPACE DESIGNATION

Agreements with land-owners
It may be possible for local communities to reach either formal or informal agreements with the owner of the site to ensure access to the site for local people. This may be an appropriate option where the site owner has a long-term connection with the local area, for example the owner of a large historic estate. It may be possible for the land-owner to dedicate the site as “open access land”.

Community Purchase
In some instances local communities have purchased important sites to ensure that they remain in community control in perpetuity. The ownership can lie with the Town or Parish Council or with a specific trust.

Village Green status
Anyone can apply to register land as a green if it has been used by local people for lawful sports and pastimes ‘as of right’ (i.e. without permission, force or secrecy) for at least 20 years.

Local Nature Reserves
A Local Nature Reserve (LNR) provide people with special opportunities to study or learn about nature or simply to enjoy it. Local Nature Reserves are designated by district or county councils and the Local Authority must control the LNR through ownership, lease or agreement with the owner.

Assets of Community Value
The Community Right to Bid gives community groups a fairer chance to prepare and bid to buy community buildings and facilities that are important to them. This could include village shops, pubs or allotments. The right covers private as well as public assets. It is important to nominate land and buildings to be part of the register of ‘assets of community value’, which is held by the Local Authority. If something on this register is offered for sale, the community then have up to six months to prepare a bid.
